On a piece of paper attached to this application, please address the following:

1. NOAA's primary interest in this program is the way in which teachers will incorporate the experience into their classroom activities and help others do the same. How do you foresee using this experience to benefit your students and colleagues? (Note: This is the most important selection criteria.)
2. Describe your experience and ability writing your own classroom activities. Be specific and offer examples.
3. What type of project would you prefer to join? Explain the parameters that go into your decision.
4. Discuss your ability to adapt to the physical and personal demands of life onboard a ship.

# SELECTING A CRUISE: Form A: Participant's Application (continued)

The research projects undertaken by each NOAA vessel are available on the Internet at

**<http://teacheratsea.noaa.gov>**. Please check the web site for cruise options. Due to homeland security, the ship schedules are no longer available to the public; therefore you cannot select a cruise specifically. By filling in the following parameters, you will be matched with a cruise that best fits your interests. Since placement is based upon ships' bunk space availability, the more flexible you are, the more likely you will be placed. If you are flexible, respond to the question with "N/A," however, you must list the exact dates of your availability.

A) Please list below **ALL** the dates that you would be available to participate on a cruise. Available Dates:

---

B) Nature of the research conducted that you are most interested in:
